PROFESSIONAL SUMMARY

Full Stack Developer and final-year B.Tech CSE student with experience building MERN-stack applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Skilled in REST APIs, JWT authentication, and cloud deployment on Vercel and Render. Seeking opportunities to build impactful software solutions and contribute to real-world products.

EXPERIENCE

Full Stack Development Intern — upSkill Campus

Remote | May 2026 – Jun 2026

- Built QuickBite, a full-stack food delivery app with user authentication, live restaurant search, and a persistent shopping cart.
- Implemented secure user authorization and user session management using JSON Web Tokens (JWT).

Full Stack Development Intern — Thiranex

Remote | Apr 2026 – May 2026

- Developed commercial software infrastructure covering a tailored E-Commerce layout, content web blogs, and tracking portals.
- Engineered relational and document database architectures executing clean multi-table joins across MySQL and MongoDB.

Full Stack Development Intern — Future Interns

Remote | Feb 2026 – Apr 2026

- Integrated distributed cloud environments to systematically launch, deploy, and host production web products on Vercel and Render.
- Contributed to multi-developer team codebases using systematic Git standard workflows and architectural pull requests.

PROJECTS

QuickBite – Full Stack Food Delivery Platform

React.js, Node.js, Express.js, MongoDB, Mongoose, Vercel

GitHub: github.com/VishnuRali/upskillcampus | Live Demo: quickbite-food-delivery-platform.vercel.app

- Created a full web app from scratch, implementing user logins, reactive catalog searching, and a persistent cart state.
- Hosted the application live, linking the front-end interface on Vercel with backend API tools running smoothly on Render.

CareBot – Mental Wellness Companion (Hackathon Project)

HTML5, CSS3, JavaScript, Web APIs

GitHub: github.com/VishnuRali/carebot-mental-wellness-companion | Live Demo: carebot-ai-mental-wellness-companion.vercel.app

- Engineered an instant chat interface built for a competitive hackathon layout, generating responsive live answers using vanilla JavaScript.

Personal Portfolio Website

HTML5, CSS3, JavaScript, Web Performance

GitHub: github.com/VishnuRali/portfolio-website | Live Demo: vishnuvardhanrali.com

- Designed a clean personal landing page to showcase modern project links, optimized for fast mobile rendering.

Indian Real Estate Management System

Node.js, Express.js, MySQL/MongoDB, JavaScript, Bootstrap

GitHub: github.com/VishnuRali/realstate-management-software-main

- Engineered a dynamic real estate system handling property listings, client filtration, and local Indian market pricing structures.
- Developed structured relational schema workflows to manage properties, agent updates, and user inquiry forms seamlessly.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, Flexbox, CSS Grid

Backend: Node.js, Express.js, RESTful APIs, Postman Testing

Databases: MongoDB, MySQL — CRUD operations, table joining, document nesting, Mongoose

Tools & Cloud: Git, GitHub, VS Code, MongoDB Compass, MySQL Workbench, Vercel, Render

Currently Learning: React.js Advanced Patterns, Next.js, Node.js/Express.js (Advanced)

EDUCATION

B.Tech in Computer Science & Engineering — Swarna Bharathi Institute of Science and Technology, Khammam (CGPA: 8.0)

2023 – 2027

Intermediate (Class XII) – PCM — Sri Chaitanya Jr Arts & Science College, Telangana (Score: 80%)

2021 – 2023

CERTIFICATIONS

- Full Stack Web Development — upSkill Campus / Thiranex / Future Interns (2026)
- Tata GenAI Powered Data Analytics Job Simulation — Forage (Jun 2026)
- IBM SkillsBuild — Software Engineering, Cloud Computing, AI in Practice, Online Security (Verified, 2025)

ADDITIONAL INFORMATION

Languages: English, Telugu, Hindi | **Hobbies:** Open Source Contribution, Gaming

Open Source: Active contributor on GitHub with public modular libraries and interface components
